- EAN model GBV-800: 5904730198899
- EAN vacuum container GBV-A800: 5904730198929

GOTIE vacuum blender is another revolution in the preparation of beverages. Thanks to the vacuum blending function, without the air, it is possible to make even tastier fruit cocktails, with more intense taste, aroma and color. So prepared drink can be stored in the vacuum containers attached to the device, so that it does not lose its health, aroma and visual properties too quickly. Take advantage of the full potential of the blender to make a cocktail from fresh fruits or crush ice with the pulse option. The cup is made of tritan - a light and durable non-harmful material (BPA-free). The removable stainless steel blade has up to six cutting knives. The value of the device is complemented by attractive design and the highest reliability.
